

Informazioni su questo libro

Si tratta della copia digitale di un libro che per generazioni è stato conservata negli scaffali di una biblioteca prima di essere digitalizzato da Google nell'ambito del progetto volto a rendere disponibili online i libri di tutto il mondo.

Ha sopravvissuto abbastanza per non essere più protetto dai diritti di copyright e diventare di pubblico dominio. Un libro di pubblico dominio è un libro che non è mai stato protetto dal copyright o i cui termini legali di copyright sono scaduti. La classificazione di un libro come di pubblico dominio può variare da paese a paese. I libri di pubblico dominio sono l'anello di congiunzione con il passato, rappresentano un patrimonio storico, culturale e di conoscenza spesso difficile da scoprire.

Commenti, note e altre annotazioni a margine presenti nel volume originale compariranno in questo file, come testimonianza del lungo viaggio percorso dal libro, dall'editore originale alla biblioteca, per giungere fino a te.

Linee guida per l'utilizzo

Google è orgoglioso di essere il partner delle biblioteche per digitalizzare i materiali di pubblico dominio e renderli universalmente disponibili. I libri di pubblico dominio appartengono al pubblico e noi ne siamo solamente i custodi. Tuttavia questo lavoro è oneroso, pertanto, per poter continuare ad offrire questo servizio abbiamo preso alcune iniziative per impedire l'utilizzo illecito da parte di soggetti commerciali, compresa l'imposizione di restrizioni sull'invio di query automatizzate.

Inoltre ti chiediamo di:

- + *Non fare un uso commerciale di questi file* Abbiamo concepito Google Ricerca Libri per l'uso da parte dei singoli utenti privati e ti chiediamo di utilizzare questi file per uso personale e non a fini commerciali.
- + *Non inviare query automatizzate* Non inviare a Google query automatizzate di alcun tipo. Se stai effettuando delle ricerche nel campo della traduzione automatica, del riconoscimento ottico dei caratteri (OCR) o in altri campi dove necessiti di utilizzare grandi quantità di testo, ti invitiamo a contattarci. Incoraggiamo l'uso dei materiali di pubblico dominio per questi scopi e potremmo esserti di aiuto.
- + *Conserva la filigrana* La "filigrana" (watermark) di Google che compare in ciascun file è essenziale per informare gli utenti su questo progetto e aiutarli a trovare materiali aggiuntivi tramite Google Ricerca Libri. Non rimuoverla.
- + *Fanne un uso legale* Indipendentemente dall'utilizzo che ne farai, ricordati che è tua responsabilità accertarti di farne un uso legale. Non dare per scontato che, poiché un libro è di pubblico dominio per gli utenti degli Stati Uniti, sia di pubblico dominio anche per gli utenti di altri paesi. I criteri che stabiliscono se un libro è protetto da copyright variano da Paese a Paese e non possiamo offrire indicazioni se un determinato uso del libro è consentito. Non dare per scontato che poiché un libro compare in Google Ricerca Libri ciò significhi che può essere utilizzato in qualsiasi modo e in qualsiasi Paese del mondo. Le sanzioni per le violazioni del copyright possono essere molto severe.

FRACTIONS.

ପାଞ୍ଚ or ପାହୁର, a quarter, is thus represented	..	1	୧
ଅଧ, ଅର୍ଦ୍ଧ, ଅର୍ଦ୍ଧେକ, half		୨	୨
ପଞ୍ଚାଦଶ, or ତିନିପା, three quarters		୩	୩
ଦେଇ, one and a half		୧	୧
ଅଢା, two and a half		୨	୨

These are irregular. In all other cases a quarter more than an even number is expressed by prefixing *ସଉଅର* to the number; a half by prefixing *ସାଡେ*; and three quarters by prefixing *ପଞ୍ଚାଦଶ* to the even number. *Exam.* *ସଉଅର ତିନି*, three and a quarter; *ସାଡେ ତିନି*, three and a half; *ପଞ୍ଚାଦଶ ଚାରି*, three and three quarters, viz., a quarter less than four.

Fractional parts are generally expressed by dividing the Rupee into sixteen annas or parts. *Exam.* *ସାତଅଣା*, seven annas, or seven-sixteenths; *ଦଶ ଅଣା*, ten annas, or ten-sixteenths.

The signs are as follows.
